- Long ½" sockets for low-profile-fitting screw connections in tight construction spaces and for protruding threaded rods
- For use with electric or pneumatic powered impact wrenches with 12.5mm = ½" drive
- Impaktor technology for above-average service life
- Hexagonal profile enables precise and profile-preserving screwdriving with high power transmission
- With cross-bore and ring socket for securing locking pin and locking ring of machine-operated tools
- With Take it easy tool finder: colour coding by size

Set with 11 Impaktor Deep sockets for use with electric or pneumatic wrenches with 12.5 mm = 1/2" drive. Long design for low-lying couplings and protruding thread rods. The Impaktor technology ensures a higher-than-average service life even at extreme requirements. The hexagonal profile used allows a high power transmission while simultaneously being precise and protecting the profile. With "Take it easy" tool finder with colour coding by size - for quick and easy identification of the required tool .

### For electric or pneumatic impact wrenches

The extremely robust forged design ensures that the Impaktor sockets have an above-average service life, even under extreme conditions.

### Long design

Due to the long design of the socket, screwdriving can also be achieved in small spaces. Fittings with protruding threaded rods are often also possible.

### Profile-friendly power transmission

The hexagon profile allows the transmission of high forces and puts less strain on the edges of bolts or screw heads than a double hexagon profile. Fine-toothed ratchets also make the use of a double hexagon profile superfluous, even in confined spaces, thanks to their small return angle.

### Cross-bore and ring socket

Due to the groove and the ring socket, the tool can be secured with a locking pin or O-ring on the power tool.

### Secure hold and easy removal

The all new smooth turning mechanism guarantees both secure and rattle-free storage, yet allows easy removal of the tool.

### Take it easy tool finder system

Take it easy tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).
