

InLine® HDMI-DVI Cable 19 Pin male to 18+1 male + ferrite choke black 0.5m

17659

HDMI is the newest standard in the area of Home cinema, multimedia and PC entertainment. This interface is to transfer pictures, data and sound digitally over one medium. Besides, HDMI is with DVI compatible what allows, e.g., the direct transfer von dvd-player signals to the screens of a TFT (only video-signals). HDMI is a very fast interface with up to 5Gbps(!).

- HDMI / DVI cable with ferrite
