

CREATE R GAME

If the microphone doesn't work, please follow below steps to check if everything is all set.

- 

Speaker: $\Phi 40\text{mm}$
Impedance: $17\pm 15\% \Omega$
Sensitivity: $106\pm 3\text{dB}$
Frequency response: 20Hz to 20kHz
Microphone: $06.0 \times 2.7\text{mm}$
Microphone sensitivity: $-42\pm 3\text{dB}$
Wireless distance: 10m
Plug: $2.4\text{GHz} + \text{Wireless} +$
Type-C audio cable + 3.5mm audio cable
Lithium battery: 600mAh 3.7V
 2.4G working hours: 23hours
Wireless working hours: 26hours
Charging time: about 3h
Charging method: (Type-C) USB 5V
Size: $86 \times 180 \times 195\text{mm}$
Product weight: 186g

Wired mode(Type-c Audio cable)

- headphone line is in wired mode. **(Note: In wireless or 2.4G mode, plugging in the TYPE-C cable will directly switch to wired mode. Unplugging the cable will automatically switch to wireless or 2.4G mode.)**
- 2) Short/Long press the volume+/- for volume adjustment.
 - 3) The microphone is turned on by default. To turn off the microphone, press the microphone key once (voice prompt is "beep beep"). To turn on the microphone, press the microphone key again (voice prompt is "beep").
 - 4) The headset is stereo by default. Fast press the microphone button twice to switch the virtual 7.1 sound (voice prompt is "beep beep"), and then press it twice to switch back to stereo (voice prompt is "beep").

1) **Plug and play:** Connecting the headphone to a music player with the provided dual 3.5mm audio cable, the headphones can be used directly for listening without setting.

- 2) In this mode, you can't use any function of the headphone, including pause playback, volume adjustment, microphone and so on.

- 1) Turn off the headphones and remove the transmitter.
- 2) Press the power button to turn on the headphone, and the indicator lights up and flashes slowly. Then double click the power button switch to "Gaming Mode".
- 3) Turn on the 2.4G receiver (plug the receiver into PC, PS4 and other devices)
- 4) Press and hold the microphone button for 3 seconds to enter the pairing state. After the pairing is successful, you can hear the Gaming Mode voice prompt. (Normally, the headphones are already paired before use.)
- 5) The headphone and receiver are automatically paired and the indicator lights up (for headphone that have already been paired).

- 1) Connect the receiver to PC/PS4 or other devices, the indicator lights up and hushes.
- 2) Turn on the headphone, it will automatically pair to the transmitter. The indicator will be always on after the pairing is successful. And the indicator will flash when the pairing fails. **(If the pairing fails, please follow the third step below to re-pair)**
- 3) Short/Long press the volume +/- for volume adjustment.

- 4) The microphone is turned on by default. To turn off the microphone, press the microphone key once (voice prompt is "beep beep"). To turn on the microphone, press the microphone key again (voice prompt is "beep").

- 5) The headset is stereo by default. Fast press the microphone button twice to switch the virtual 7.1 sound (voice prompt is "beep beep"), and then press it twice to switch back to stereo (voice prompt is "beep"). **(See 2.4G UI below for specific operations)**
- 6) When the power supply of the headphone drops to 3.3V, the low-power indicator in red, 3.3V prompts, flashes red light, and the voice prompt is "Battery Low" and sounded every minute. The receiver indicator flashes; The headphone turn off below 3.25V.

- Please follow the instruction to operate
- PLS charge the headphone with input power below 3.3V, in order to protect the battery;
- Please store or use the headphone in a normal temperature environment.
- PLS keep the headphone from heat source, such as radiators, hot air regulators, stoves, or other heat generating instruments. As it is not anti-high-temperature.
- Don't jam the parts of the headphone, such as charger port, LED port and microphone etc.
- In order to protect your hearing and extend the headphone service life, it is not recommended to adjust the volume to the maximum level for a long time.
- Whatever reasons damage the headphone, please feel free to contact our after-sales staff in time rather than repair by yourself. Otherwise, you will accept without after-sales service.
